

3D WALL TREATMENT INTERIOR ACOUSTICS

DESCRIPTION

- ▶ 3D Tiles are our stylish and high performing version of wall art.
- ▶ In packs of 6 that include all the fixings you need to install, our lightweight and semi-rigid 3D Tiles are super easy to put up all while giving you the freedom to mix and match both colours and styles.
- ▶ With 15 colours in eight different designs, you can create a feature that reflects your own style and environment.
- ▶ But they don't only look good, they are high performing as well; specifically designed to reduce and control echo creating a more focused and productive space.
- ▶ Just like the rest of the interior acoustics range, durability, longevity and performance are assured.
- ▶ Decorative and functional acoustic tiles for residential, office, education, retail, hospitality and commercial interiors
- ▶ Minimise noise in the interior environment and create unique finishes and features
- ▶ Easy dry clip system for installation
- ▶ Wall treatment shall be 3D Tile series acoustic tile from thermally moulded, needle punched, felted polyester material containing not less than 55% recycled material.
- ▶ Tiles to be supplied with 1 standard tile clip per tile.
- ▶ Install as per 3D Tile Install Instructions.
